WOMEN'S RIGHTS. The Decision of the Court of Appeals Against Lady Sandhurst.

special Cable Dispatch to THE EVENING STAR. LONDON, May 17.-The unanimous decision of the court of appeals yesterday in Lady Sandsurst's case has finally settled the legal question against the right of women to sit in the county councils. The judge decided that the act expressly enfranchising women as electors has the effect in the absence of any further statement of disqualifying them as candidates. This is another instance of a legal dictum that words in acts of parliament implying man include women when disability or punishment is The commission, it is announced, will not reconcerned, but excludes women when a privi- port until February, 1890. lege is conferred, "He" means "she" when the question is one of going to government, but "he" only means "he" when it is a question of Reports of Committees Read at Togoing to the ballot-box. I have just interviewed Lady Sandburst. She says the struggle will now move from the courts to parliament. The county council has passed a resolution by two to one in favor of women sitting, and a bill has been introduced in that sense. There is much curiosity to see if Salisbury will make good his recent promises by supporting it. Meanwhile, Lady Sandhurst points out the curious anomaly that although she is ejected from the council because the male candidate next her claimed the seat, Miss Cobden sits on because there is no adverse claim to it. Similarly Miss Cons sits as alderman. Lady Sand hurst tells me a committee is being formed to protect Misses Cobden and Cons against any ossible consequence of retaining their seats.

A BOULANGER SURPRISE.

He is Preparing for a Triumphal Return to Paris.

London, May 17 .- Gen. Boulanger is credited since the senate is likely to abandon his prose cution, to return to Paris. The report says that his followers have been communicated tional committee, read the report of that comwith and the most elaborate preparations are making for his triumphal return to the French were more than 500 churches with a membercapital. The general is disgusted at his treatment in London, and has declared to a friend that he would rather trust to the tender mercies of his own nation and the defense of his friends than to longer trespass on the cool his friends than to longer trespass on the cool his friends than to longer trespass on the cool should be squarely met. The rate of dissolution was last year 36 per cent, the largest in the courtesy of the English, with whom he has gained neither fame nor position. The general complains especially of his treatment by the complains especially of his treatment by the newspapers, many of which have derided him. It is owing, no doubt for the most part, to the papers that Boulanger has been practically boycotted in England. He commenced his London career more like a showman than a statesman, and has selected as his companions that work among the colored people needed attention which it would be wise to give it. certain class of public men who are not usually accepted as

THE AIDES-DE-CAMP OF SOCIETY. Mr. Mundella, Gladstonian member of parliament for Brightside, is much disappointed at the result of his efforts to have his bill for the protection of children considered in parliament. While both liberals and conservatives admit its need and would probably pass it if it came up, yet more pressing business keep this and other good measures back. The bill pro-vides for the proper care of children whose parents neglect them. It embraces a clause

against the pernicious practice of insuring children's lives, which has resulted in numerous murders of insured children, and also deals with the exhibition of children upon the stage. Mr. Mundella has been working hard to get a night appointed for a hearing of his bill, but he will probably be obliged to wait until after the Whitsuntide recess.

The principal publishing houses here are apparently vieing with each other in their eager

Seven hundred houses were burned, and as a large number were tenements occupied by more than one family the number of families rendered homeless will reach 1,200 comprising about 6,000 souls. Prominent business men are interesting themselves in behalf of the destitute. Application has been made for the use of the government buildings to shelter those who are camped out in the fields. Food is being liberally distributed by the clergy. A majority of the homeless belong to the working class and insurance rates were almost prohibitory. Very few have anything to fall back on. The total loss is estimated at \$600,000; insurance, \$130,000.

IMPORTATION OF VOTERS. The Indiana Grand Jury is Investigating the Subject.

TWO CENTS.

A YOUNG MURDERER. He Coolly Shoots Down Two Lads and then Escapes.

CHICAGO, May 17.-Frank Jasinski, aged sixteen, stepped out in front of his father's saloon last night with a rifle in his grasp. Glancing down the street he saw Frank Kiowski, a lad of his own age and an acquaintance, standing in the front door of his home. Jasinski raised the rifle, took deliberate aim, and fired. Kiowski fell, the ball having passed through his body two inches above the heart. Jasinski then coolly took aim and fired at another acquaintance, Mike Meka, who stood at the front door of his home, 100 feet away, and Meka fell to the ground, the ball having entered six inches be-low the left shoulder-blade. Jasinski escaped. Kiowski's wound is fatal, but Meka's injury is not considered serious. Jasinski belongs to the same gang with young Kuberowski, who, without provocation, shot a lad named Trinor last Sunday night. Jasinski had gathered in his room a "wild west" outfit. including knives and re-volvers, as well as a lot of flash literature.

THE PRESBYTERIAN ASSEMBLY. day's Session.

NEW YORK, May 17.-Moderator Roberts called the second day's session of the Presbyterian general assembly to order shortly after 9 o'clock this morning. The church was but partly filled at the time. The first half hour was spent in a service of song and prayer. Then the business session began. The old rules for the government of the assembly were adopted. J. T. Duffield, D. D., of New Brunswick, extended an invitation to the assembly from Princeton college and seminary to visit that place a week from next Saturday. The invitation was accepted, and on that day the session of the assembly will close at 11 o'clock. The moderator then announced the standing committees for the session.

Upon the invitation of the Union Theological seminary, the assembly will visit that institution immediately upon adjournment on Monday. The report of the committee on extinct London, May 17.—Gen. Boulanger is credited churches was then read. In the opinion of this committee, a "church property committee should be appointed to whom all cases of defunct churches should be referred." The re-

port was adopted. Rev. Dr. Morris, the chairman of the educaforce by reason of old age and disease also required attention. In conclusion he said the church must have paid and ordained ministers to meet this growing demand for ministerial aid. It was vital to church interests and re-

Chasing the Mexican Bandits. CHICAGO, May 17 .- A dispatch from Topeka,

Kas., says that a telegram received last night by General Manager Robinson states that the posse which is in pursuit of the two Mexican bandits who murdered Supt. Richards Wednesday, of the Carthage mines, and got away with \$7,000 of the Santa Fe company's money, is giving desperate and hot chase. The posse is made up of the sheriff, two deputies, and six employes of the mines. Just before dark last night the two bandits were almost overtaken at the foot of the mountains. The party was near enough to shoot them and wounded one of them slightly. During the night the criminals made their escape. Two employes in the mines, supposed to be accomplices, have been ar-rested. Supt. Richards had received from Topeka a large sum of money only an hour before for the purpose of paying the employes. At any other time he would have had nothing on

A despatch from Santa Fe, N. M., says: A report reached here last night that it was believed at the Santa Fe mines at Carthage that the posse who went in pursuit of the murderers of Superintendent Richards, succeeded in killing the pair. The posse returned but refused to affirm money was not recovered and the story is that it was buried by the robbers soon after the murder. The body of Superintendent Richards will be sent to Quincy, Ill., where his family live.

From Wall Street To-day. New York, May 17, 11 a. m. The general list in the stock market opened firm to strong with first prices showing advances over last evening's closing figures of from 1/2 to 1/2 per cent, the only exceptions being Union Pacific, New England and Rock Island. The books of the Oregon Transcontinental closing to-day at 3 p. m., this was the day for cash sales, which 3 p. m., this was the day for cash sales, which must be delivered to-day, and are so available for voting purposes at the meeting. Hence the stock opened cash at 37½, an advance of % over the last cash sale of yesterday, while regular way it first sold at 34, loss of 3½ per cent. This difference steadily increased as the price regular way declined 1 per cent to 33, while the cash price as steadily advanced to 40¾. The largest difference was 7½, with cash at 40¾ and regular at 33½. The general list was weak after the opening, but the losses established were only fractional, Union Pacific and Lackawanna declining % each, and Reading and Burlington ½ each, the losses in the others being smaller fractions. The tone of the market, however, undewent a change for the better toward the end of the hour, and at 11 o'clock the market was quiet and firm, but generally at the market was quiet and firm, but generally at small fractions below the opening prices. The active shares were New England, Union Pacific Gold for Export.

A PROSPECTIVE REUNION. "Synod" and "General Synod" of the Reformed Presbyterian Church to Unite.

PITTSBURG, May 17 .- There is a strong prob-

ability that the two factions of the Reformed Presbyterian church, known as the "synod" and the "general synod" will be reunited after a separation of fifty-six years. A committee of three members of each synod has had several conferences. A number of schemes have been suggested to bury the hatchet and restore peace and harmony within the fold. There is a strong under-current of sentiment developing among the younger members of the general synod or the "old covenanters," as they are sometimes called. In 1833 the Reformed Presbyterian abused will at a meeting held in Philaerian church split at a meeting held in Philadelphia. The seceders or covenanters would not allow their men to vote upon any questions relating to the state or national government. The general synod took the opposite view, and said it was a duty they owed to their state and church to take part in all elections. Some of the covenanters now want to vote upon the prohibitory amendment, claiming that it is a righteous cause. For this reason some of them would like to come back to the fold again Their reason for not voting is that God is not in the Constitution of the United States,

Lauresen, the oiler of the steamship Berkshire, who disappeared last Friday, was found floating in the harbor. phere is every evidence of foul play. SUPPLIES FOR THE NAVY. An Economic Reform in the Method

that the practice of the department has been to purchase supplies for the navy by advertisement at the beginning of each fiscal year, makthe ing the list of purchases extensive enough to cover the probable needs of the different bureaus during the entire year. Upon inquiry the Secretary learned that in making these purchases regard was not had for the amount of stores on hand. This led to the accumulation of stores, which in many cases rapidly deteriorated

and caused A LOSS TO THE GOVERNMENT. To satisfy himself upon this point Secretary Tracy has just procured a statement of the amount of stores now on hand, as the adverwest encountered a tremendous sand drift in a | will soon be issued. This statement shows that

Wherever it shall be possible to utilize supplies differing in unimportant respects from those called for, such substitutes shall be made.
